PROFILE

B.Com graduate from Vidyasagar University with a strong interest in Data Analytics. Skilled in SQL, Excel, and Power BI, with experience in data cleaning and data analysis, I am continuously learning and upskilling to turn data into actionable insights and contribute effectively in a professional Analytics role .

EDUCATION & Qualifications

Vidyasagar University

Bachelor's in Commerce with specialization in **Accounting and Finance** **2022 – 2025**

SKILLS

Technical: SQL, Statistics, Data Visualization

Tools: PostgreSQL, SQL Server, Power BI, Excel, AWS (S3), snowflake

CERTIFICATIONS

- **Complete Data Analyst Bootcamp: Basics to Advanced** – Udemy, Sep '25 *(Link)*
- **SQL (Intermediate)** – HackerRank, Jul '25 *(link)*
- **SQL (Basic)** – HackerRank, Jul '25(Link)

PROJECTS

Data Analysis | AtliQ Technologies (Link) **Sep 2025**

- Built an end-to-end hotel analytics pipeline using **Excel, SQL Server, and Power BI**.
- Designed a **star schema** and wrote SQL queries to analyze KPIs like Revenue, ADR, RevPAR, and Occupancy.
- Developed an **interactive Power BI dashboard** for property, platform, and trend insights.

Real-Time Weather Analytics & Forecasting Dashboard (Power BI | WeatherAPI) (Link) **Oct 2025**

- Built a **real-time multi-city Weather Analytics Dashboard** using **Power BI + WeatherAPI**, converting raw JSON into a **clean, scalable star-schema model**
- Designed an **API-driven data pipeline** and created **advanced DAX KPIs** to track forecast trends, temperature changes, and AQI insights.
- Delivered an **automated interactive dashboard** with **Fact/Dimension modeling** to analyze hourly, daily, and city-wise weather patterns.

Hospital Analytics Dashboard (Excel | SQL | Power BI) (Link) **Oct 2025**

- Built a **complete Hospital Analytics System** using **Excel, SQL, and Power BI**, transforming unstructured hospital data into a **clean, reliable Star Schema** for reporting.
- Developed **40+ DAX measures**, SQL views, and Fact–Dimension tables to analyze **patients, doctors, medicines, surgeries, tests, and hospital finances** end-to-end.
- Designed **five interactive dashboards** (Overview, Patient, Doctor, Hospital, Finance) that deliver insights into **patient behavior, operational efficiency, and revenue performance**.

ACHIEVEMENTS

- SQL – Completed 50 badges on LeetCode and solved 100+ SQL problems
